Collecting data with MapComplete

What is OpenStreetMap?

Geospatial data

Lines and **dots**

+

Some information on each line and dot

Open to edit...

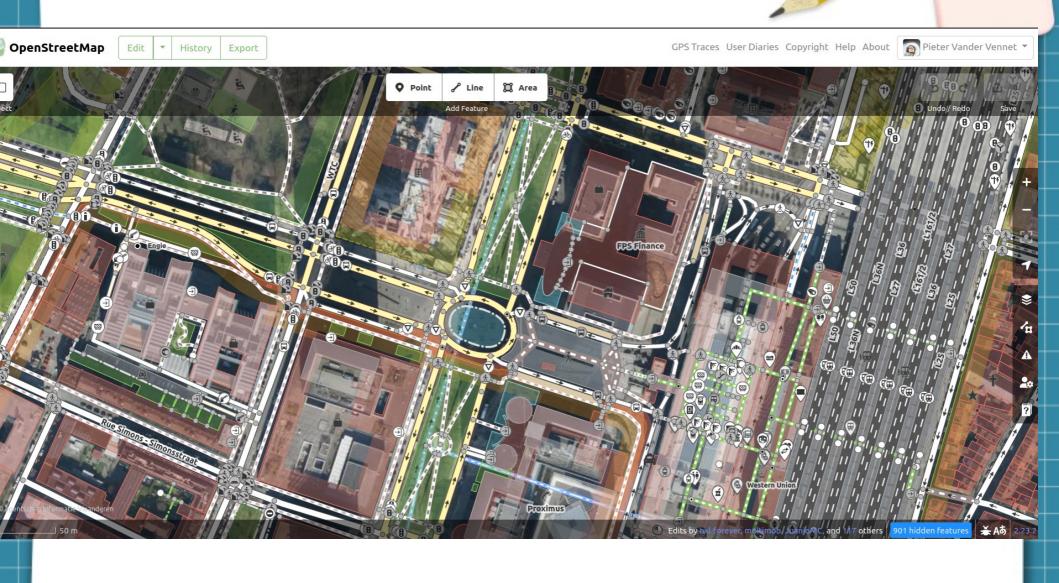

All types of objects are allowed, as long as...

- they are verifiable
- they are somehwat permanent

Add whatever you want and need!

Allright! Lets start

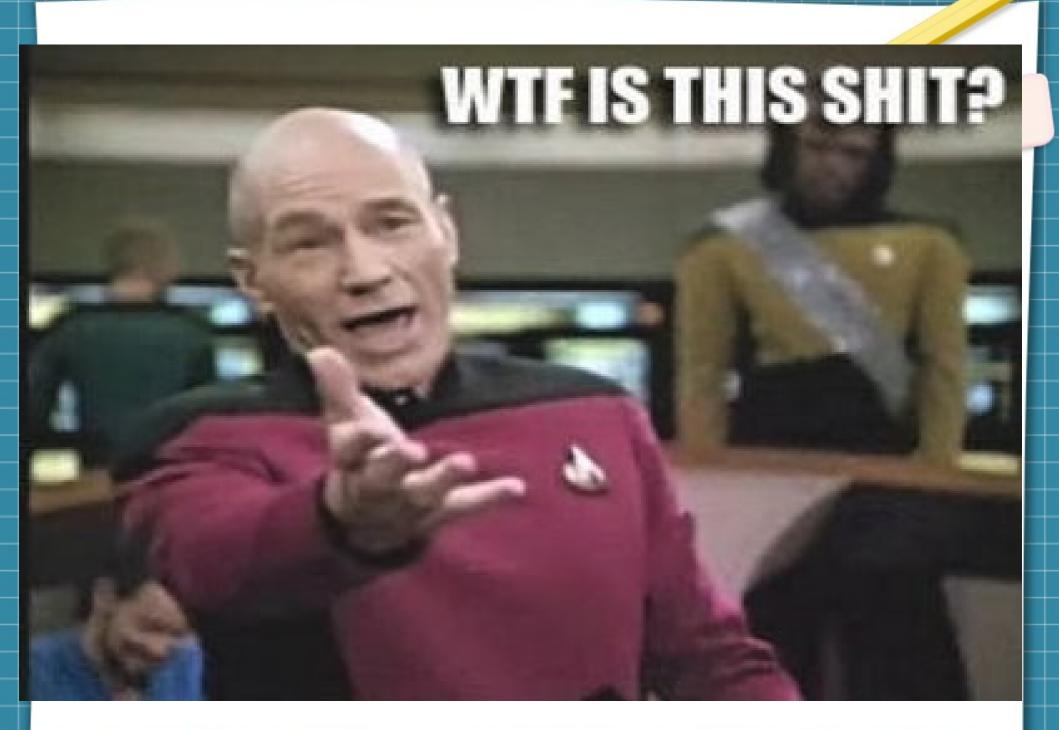

Allright! Lets start

Allright! Lets start

You can start with learning everything about:

- Nodes, ways, relationships, changesets
- Vespucci, iD, JOSM, StreetComplete, MapContrib, GoMapp!, MapComplete
- Get documentation on the OSM-wiki, mailing lists, fora, disquss and chat, matrix, reddit.com/r/openstreetmap, ...
- Reuse the data with overpass, geojson, gpx, WFS, WMFS, slippy tilemaps or vector tiles
- Analyse the data using QGIS or ArcGIS
- Routeplanning via Anyways.eu, graphopper, SRTM, Mapbox, ...
- (Reverse) geocoding via nominatim, photon, MapBox or another service
- AR use an app such as OsmAnd, OruxMaps, GoMaps, Organic Maps, Magic Earth, Fietsersbond-app, Slim-naar-antwerpen, fietsrouteplanner.org,
- Or go catch some pokemon in an app with an OSM-background

Wat is MapComplete?

What is MapComplete?

It is a topical map viewer

It is a way to quickly create thematic maps

Why?

Openbare fietspompen

Fietsboxen, fietsbogen, fietsstraten, fietsherstelpunten, fietspompen,... Qua fietsinfrastructuur kan Jette ondertussen uitpakken met een indrukwekkend arsenaal aan voorzieningen ten behoeve van de fietser.

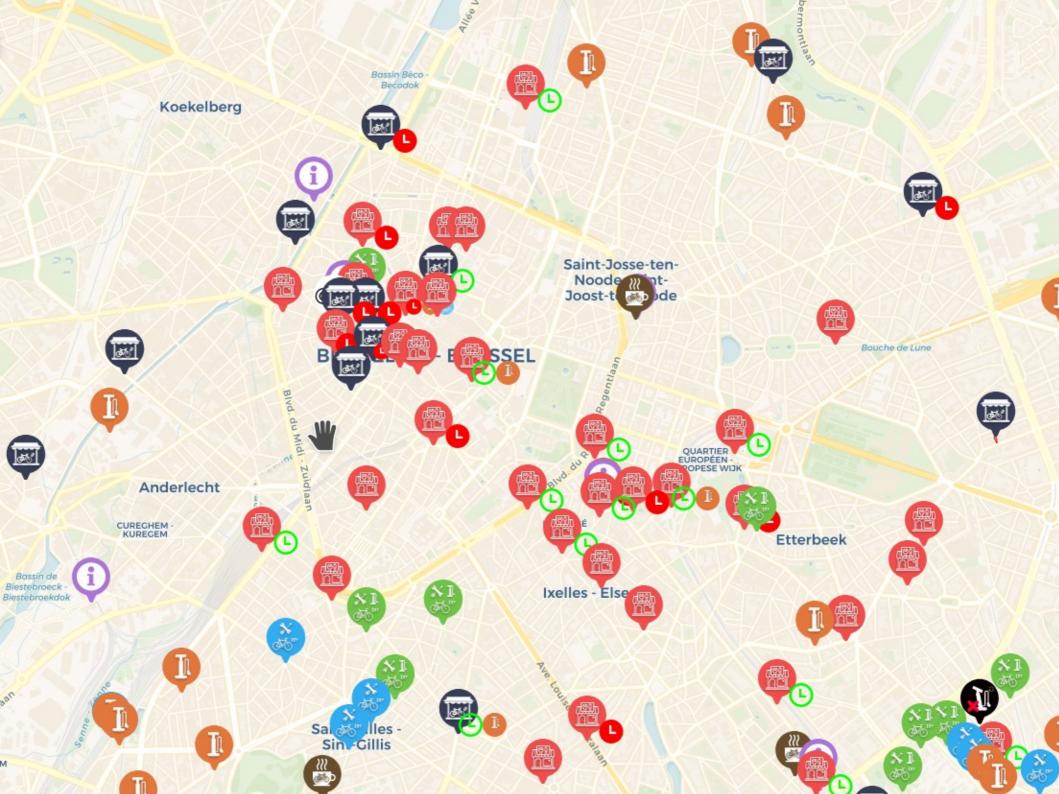

Cyci

De openbare fietspompen op het Jetse grondgebied vind je op volgende locaties:

- Woestelaan, Onze-Lieve-Vrouwvoorplein: voor de Onze-Lieve-Vrouw van Lourdeskerk
- · Kardinaal Mercierplein: aan de Franstalige bibliotheek*
- . Koningin Astridplein
- · Léon Theodorstraat: aan Theodor 108*
- **Jean-Louis Thysplein:** beneden aan de trap komende van de J. Neyberghlaan, voor de fietsbogen
- . E. de Grijsestraat: op het pleintje van de school Aurore
- · Oude Afspanningsplein: naast het Villo!-station
- · A. Gomandstraat: aan de ingang van GC Essegem
- Belgicalaan: voor de ingang van metrostation Belgica aan de J.-B.
 Serkeynstraat
- · Amnesty Internationalplein: naast de fietsbogen en de fietsbox
- Boudewijnpark (fase 2): naast het speelplein langs de E. Toussaintstraat

* Op deze twee locaties vind je ook telkens een overdekt fietsherstelpunt.

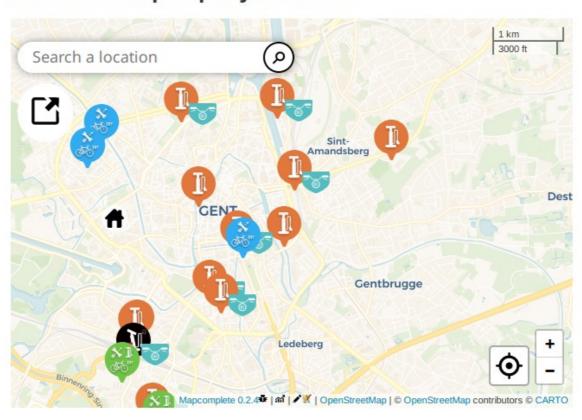

Home > Herstel en Onderhoud > Een fietspomp in jouw buurt

Een fietspomp in jouw buurt

Platte band? Geen probleem! In Gent kun je op verschillende plekken gebruik maken van een publieke fietspomp.

Vind een fietspomp in jouw buurt

Is er een fietspomp defect? Geef ons een seintje op info.defietsambassade@stad.gent of 09 266 77 00. We herstellen ze zo snel mogelijk.

More themes

Hydrants, Extinguishers, Fire stations, and Ambulance stations.

Map to show hydrants, extinguishers, fire stations, and ambulance stations.

Open Bookcase Map

A public bookcase is a small streetside cabinet, box, old phone boot or some other objects where books are stored

Open Toilet Map

A map of public toilets

Open AED Map

On this map, one can find and mark nearby defibrillators

Open Artwork Map

Welcome to Open Artwork Map, a map of statues, busts, grafittis and other artwork all over the world

Benches

A map of benches

Bicycle libraries

A bicycle library is a place where bicycles can be lent, often for a small yearly fee

Campersites

Find sites to spend the night with your camper

Charging stations

A worldwide map of charging stations

Open Climbing Map

On this map you will find various climbing opportunities such as climbing gyms, bouldering halls and rocks in nature

Fietsstrater

Een kaart met alle gekende fietsstraten

Drinking Water

On this map, publicly accessible drinking water spots are shown and can be easily added

Facade gardens

This map shows facade gardens with pictures and useful info about orientation, sunshine and plant types.

Friturenkaart

Op deze kaart vind je je favoriete frituur!

Ghost bikes

A **ghost bike** is a memorial for a cyclist who died in a traffic accident, in the form of a white bicycle placed permanently near the accident location

A map of maps

This theme shows all (touristic) maps that OpenStreetMap knows of

De Natuur in

Deze kaart bevat informatie voor natuurliefhebbers

Playgrounds

A map with playgrounds

Open Shop Map

An editable map with basic shop information

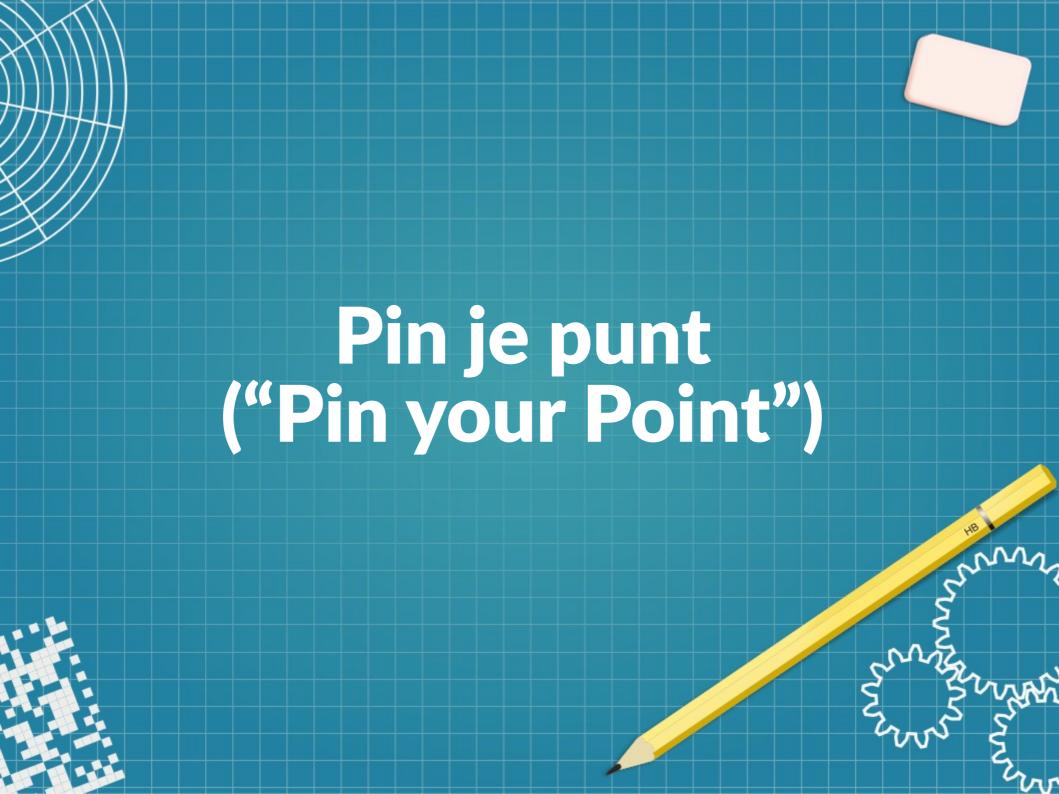

Sport pitches

A map showing sport pitches

Surveillance under Surveillance

Surveillance cameras and other means of surveillance

I'd like to make a map with all charging stations for electrical bikes

But there is **no data** about them...

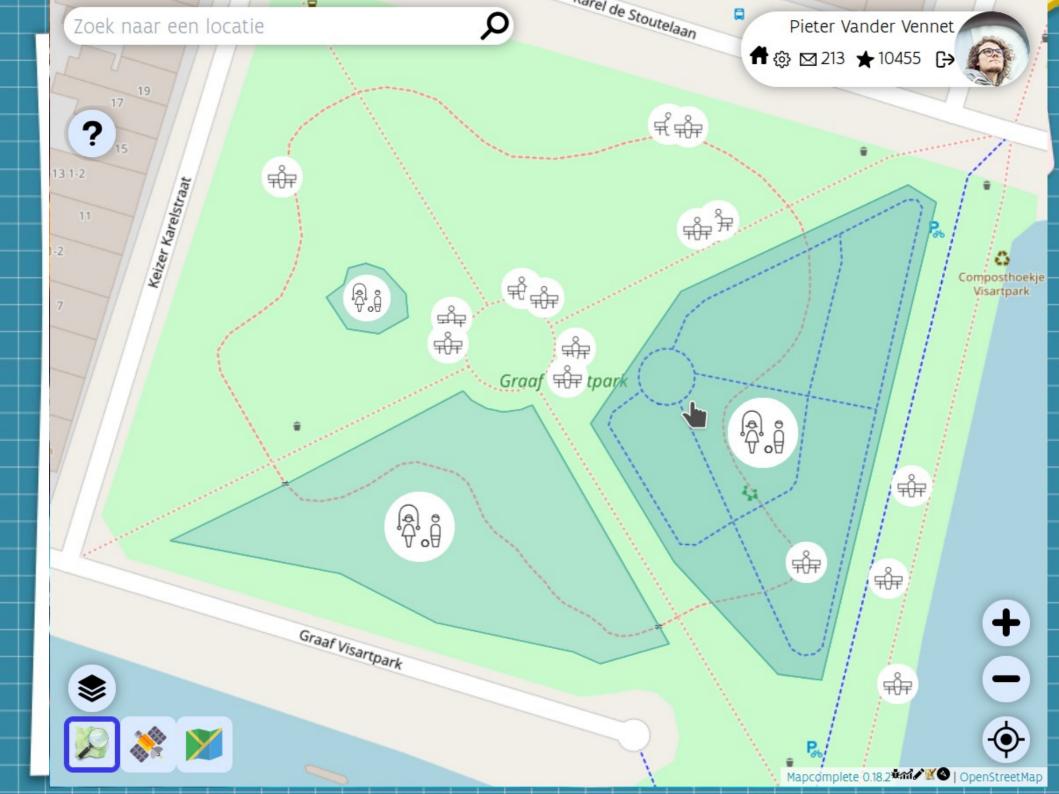

If only a tool existed to easily add them into some database...
We could run a media campaign

Pin je Punt

Shows and updates:

- Charging stations for ebikes
- Bicycle rental
- Toilets
- Playgrounds
- Benches and picnic tables

By the way: we have some datasets about benches and other stuff.
It's managed by like 5 different agencies in various excel sheets

The import flow

- 1.Get the data, check the license
- 2. Consult the community
- 3.Clean up the data, convert to OSM-tags
- 4.Load into a special page on MapComplete*
- 5.MapComplete removes duplicates and makes a map note
- 6. Volunteers review and add into OSM
 - * only available to experts

The import flow

1106 notes have been handled in 9 months time

319 notes still to handle

- Often the hard cases, e.g. toilets within semipublic buildings, benches where no aerial imagery and no mapillary imagery exists
- Excellent test of actual data quality and usability. In some cases, mappers went out to search those toilets
